

# CHARTER TOWNSHIP OF MILFORD

*Oakland County*

**MAR - 3 2003**

Docket ID No. OW-2002-0050

## RESOLUTION SUPPORTING THE CLEAN WATER ACT

WHEREAS: The U.S. Army Corps of Engineers and the Environmental Protection Agency have requested public input regarding issues related to what waters are subject to Federal jurisdiction under the Clean Water Act (CWA) and other laws designed to protect the environment and particularly have requested public input regarding how "waters of the United States" shall be defined; and

WHEREAS: Clean water is essential for drinking, for recreational, industrial, commercial, and agricultural uses and for aquatic life and wildlife; and

WHEREAS: For 30 years, the Clean Water Act has played an essential role in protecting and restoring our nation's waterways; and

WHEREAS: This progress would not have been possible if the Act had not applied to all our nation's waters; and

WHEREAS: A more restrictive definition of the waters subject to the Clean Water Act would be detrimental to the health, safety, and welfare of the Charter Township of Milford for the following reasons:

- A. Scientific studies repeatedly show the interconnectedness of surface waters, wetlands, and groundwaters. Therefore, adequate protection of navigable waters relies on protection of non-navigable tributaries and adjacent wetlands; and
- B. Isolated wetlands provide essential groundwater recharge services. In recent years, Southeastern Michigan aquifer levels have been declining, negatively affecting the amount of water available for residential, commercial and industrial use; and
- C. Smaller, isolated wetlands have been shown to provide as many ecological services to the Huron River Watershed as large wetlands contiguous to waterbodies; and
- D. Flood control is dependent on proper management of the entire watershed draining to the Huron River; and

WHEREAS: Enforcement of water protection for isolated, ephemeral, non-navigable or adjacent waterbodies at the state level, without federal support under the Clean Water Act, would be inadequate because

1. Enforcement by the state of Michigan of existing water protection programs is underfunded and regularly inadequate; and

Donald D. Green, Supervisor

Colleen Schwartz, Clerk

Cynthia Dagenhardt, Treasurer

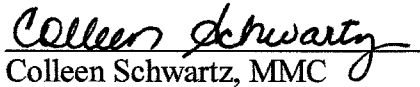

Randal K. Busick, Trustee  
Brien R. Worrell, Trustee  
William E. Mazzara, Trustee  
Dale R. Wiltse, Trustee

2. Without the leverage provided by Clean Water Act requirements, state compliance with water protection rules would be much less likely to occur; and

WHEREAS: The Charter Township of Milford has non-navigable waters that provide recreation for out-of-state visitors;

THEREFORE BE IT RESOLVED: That the Charter Township of Milford affirms

that the definition of U.S. waters subject to the Clean Water Act should include, in addition to traditionally navigable waters, all non-navigable tributaries, intermittent and ephemeral streams, waters that pass through man-made conveyances, and all wetlands whether or not there is a visible connection to surface waters.

Colleen Schwartz, MMC  
Township Clerk
