

SCIENCE IN THE COURTS

DECEMBER 6–12, FLORIDA

The Science in the Courts Institute offers useful and interesting object lessons on the costs imposed when standards of scientific rationality are ignored. It also provides a look at cutting-edge scientific scholarship in such fields as medicine and biochemistry. Finally, it gives participants a solid review of such methodological and technical issues as cost-benefit analysis and the identification of scientific experts.

New Age Medicine

Sally Satel
Yale School of Medicine

Alternative Medicine and Public Health

Bruce N. Ames
Biochemistry, UC Berkeley

The Prevention of Cancer: The Role of the Environment

Bruce N. Ames

Standards of Science

James Trefil
Physics, George Mason University

Scientific Experts

James Trefil

Risk Assessment I

Kip Viscusi
Harvard Law School

Risk Assessment II

Kip Viscusi

Sally Satel is the author of *P.C.M.D.* Bruce Ames is the director of the National Institute of Environmental Health Science at UC Berkeley and is one of the most frequently cited scientists.
